

CITY OF WESTMINSTER

INTRODUCTION OF EMISSIONS-BASED CHARGING, AMENDMENTS TO PARKING CHARGES, AND CHARGES FOR ADDITIONAL RESIDENTS' PERMITS

1. NOTICE IS HEREBY GIVEN that Westminster City Council proposes to make the following Orders under sections 6, 32, 35, 45, 46, 49 and 124 of and Part IV of Schedule 9 to the Road Traffic Regulation Act 1984, as amended:

- The City of Westminster (A Zone) (Amendment No. *) Order 202*;
- The City of Westminster (D Zone) (Amendment No. *) Order 202*;
- The City of Westminster (Off-Street Parking Places) (Paddington Recreation Ground) (Amendment No. *) Order 202*;
- The City of Westminster (Parking Places) (B Zone) (Amendment No. *) Order 202*;
- The City of Westminster (Parking Places) (C Zone) (Amendment No. *) Order 202*;
- The City of Westminster (Parking Places) (E Zone) (Amendment No. *) Order 202*;
- The City of Westminster (Parking Places) (F Zone) (Amendment No. *) Order 202*;
- and
- The City of Westminster (Parking Places) (G Zone) (Amendment No. *) Order 202*.

2. The general effect of the Orders would be to:

- (a) introduce a new emissions-based charging structure within the City of Westminster, as set out in the Schedule to this Notice, for the following types of parking places:
 - (i) **pay-by-phone parking places** (including on-street pay-by-phone parking places and those pay-by-phone parking places in the Paddington Recreation Ground Car Park, but not including coach pay-by-phone parking places, market traders' parking places, motorcycle parking places or taxi pay-by-phone parking places);
 - (ii) **residents' parking places**; and
 - (iii) **shared-use parking places**,as set out in sections A1, A2, B1, B2, E1 and E2 of the Schedule to this Notice;
- (b) increase the charges for:
 - (i) **parking cards**; and
 - (ii) **trade permits**,as set out in sections C and D of the Schedule to this Notice; and
- (c) introduce new issuance arrangements for residents' permits such that a single permit would no longer list the vehicle registration marks of up to two vehicles – instead, each vehicle would require a separate permit, up to a maximum of three registered vehicles per individual, with the second and third permits incurring additional charges, as set out in section F of the Schedule to this Notice.

Please note that the above proposals do not affect parking places or permit issuance arrangements on Westminster's housing estates.

3. The proposed Orders and other documents giving more detailed particulars of the Orders are available for inspection until six weeks have elapsed from the date on which either the Orders are made or the Council decides not to make the Orders at

<https://westminstertransportationservices.co.uk/ebc> and, in person by appointment only, at Westminster City Hall, 64 Victoria Street, London, SW1E 6QP, between 9.00 a.m. and 5.00 p.m. on Mondays to Fridays (except bank / public holidays). Please telephone (020) 3057 2156 or email tmo.westminster@wsp.com to arrange an appointment.

4. Further details of the new emissions-based charging structure are available on the City Council's web site at: <https://www.westminster.gov.uk/parking/parking-fees-and-charges>.

5. Any objections or other representations about the proposal should be sent in writing to the Council's agents, WSP Traffic Order Team, 3rd Floor, WSP House, 70 Chancery Lane, London, WC2A 1AF, or by email to tmo.westminster@wsp.com quoting reference 8056/PJ, by 14th February 2024. All objections must specify the grounds on which they are made.

Dated 24th January 2024

JONATHAN ROWING
Head of Parking
(The officer appointed for this purpose)

The City of Westminster (Parking Places) (F Zone) (Amendment No. *) Order 202*

The City of Westminster (Parking Places) (G Zone) (Amendment No. *) Order 202*

Statement of Reasons

The City of Westminster has some of the highest carbon emissions and worst air quality of any national local authority. Therefore, the City Council proposes to introduce emissions-based charging for both pay-to-park casual kerbside parking and residents' parking permits to deliver more local positive impacts through the provision of discounts for 'cleaner', less polluting vehicles. The payment structure will use banded charges based upon vehicles' individual tailpipe emission levels of Carbon Dioxide (CO₂). It is also proposed that an additional diesel surcharge apply respectively for pre-2015 diesel vehicles to address the issue of the emission of Nitrogen Oxides (NO_x).

Emissions-based charging uses DVLA data. Where CO₂ data is not held, such as for vehicles registered before 2001 or for vehicles not registered in the UK, separate charges will be levied.

The implementation of an emissions-based charging scheme for residents' permits necessitates the replacement of the current policy allowing up to two vehicle registration marks (VRMs) on a single permit policy with a new policy whereby each VRM would be covered by a single, individual permit. To accommodate this, individuals would be entitled to purchase additional permits for their different vehicles, up to a maximum of three per individual, but with the introduction of an incremental surcharge per additional permit. This would apply to new applications and any permit renewals. Second permits would be charged an additional £50 on top of the price of the permit and third permits an additional £100.

The proposals for both the pay-to-park and residents' permit schemes align with the Fairer Westminster strategy and complement a number of corporate environmental policies, strategies and commitments outlined in section 4.2 of the May 2023 report - 'Parking Fee Structure Review – Approval of Concept'. The improvement of air quality is an important priority for the City Council and these policies support this aspiration.
